EDUCATION

UC Berkeley

Bachelor of Arts, Economics

Bachelor of Arts, Statistics

- Undergraduate Economics Association
- Cal Alumni Association

Berkeley, CA

2023-2025

PROJECTS

Payroll Surprise Forecasting with Macroeconomic Data

- Built an end-to-end forecasting pipeline using public BLS and FRED macroeconomic data to model payroll surprise regimes and labor-market conditions.
- Engineered time-series features such as rolling averages and momentum indicators from job openings, hires, quits, and unemployment data to improve predictive signal.
- Evaluated model performance using ROC-AUC, MAE, and R-squared, achieving 0.768 ROC-AUC for upside-surprise classification and 0.751 ROC-AUC for downside-surprise classification.

paulpuccinelli.com | Webmaster & Developer

- Designed and built a fully responsive portfolio website from scratch using HTML, CSS and Javascript.
- Built a functional contact form featuring client-side validation, live e-mail delivery via the EmailJS API, and a custom-coded slider CAPTCHA implemented in Javascript.
- Managed all source code using Git with a structured commit history, maintaining version control across iterative design, content and feature updates.

Independent Economics Blog | Writer & Analyst

- Publish original economic research on fiscal policy, monetary economics, and financial markets, translating quantitative analysis into clear, accessible commentary for a general audience.
- Conducted an empirical analysis of consumer inflation expectations using University of Michigan survey data and realized CPI, GDP, unemployment, and consumer sentiment data from FRED.
- Analyzed the transmission of geopolitical oil-supply shocks through inflation expectations, Treasury yields, quantitative tightening, and stagflation risk; produced supporting data visualizations in Python using primary economic data.

Work Experience

Red Jacket Brewing | Server & Bartender

February 2021 - May 2022

- Coordinated closely with bartenders, servers, kitchen staff, and management to resolve issues quickly while ensuring quality service.
- Processed customer orders and payments accurately through POS systems and communicated effectively with both customers and back-of-house staff.

Calumet, MI

NY Pie | Cook, Server & Bartender

2013 - 2020

- Managed a high volume of customer requests, orders, and payments while maintaining accuracy and professional service in a fast-paced environment.
- Trained and supported new kitchen staff on procedures, workflow, and service standards, helping maintain consistency during high-volume periods.

Santa Rosa, CA
